SMOKE

SIGNALS

*Est. June 11, 1913
Kaibab Indian Reservation*

Hello Tribal Members,

We hope this newsletter finds you well. It feels like the day's are moving way to fast. October 3, 2020 will be here before we know it. With the COVID-19 pandemic we may need to hold our Annual General Membership Meeting differently. We are currently exploring alternatives for this important meeting.

The COVID-19 Welfare Assistance Program is being utilized by our people. If you have not received your check please call the tribal office at 928.643.7245 and our receptionist, Ms. Hopper will direct you to the appropriate office. A new form has been developed that will be used for future payments until then we are still using the original form.

Quarterly Per Capita payments will continue to be issued as long as we are receiving payments from our transfer agreements. These payments will not be what we usually receive since Casino's do not have all the machines in play due to COVID-19.

Our CHR Department has mailed out care packages to our tribal members living off the reservation. They included hand sanitizers, gloves and re-usable masks.

We are moving forward with the tribal member portal on our website. We wanted to have this completed this month however we have run into a few bumps. We will keep you updated on this progress.

The draft EIS for the Lake Powell Pipeline is currently out for comments. Comments are due on or before September 8, 2020. Our team has been diligently reviewing and commenting on this project.

Tribal Elections will be held on October 3, 2020, for Chairperson, Vice-Chairperson, and 4 Tribal Council seats. The Chairperson, Vice-Chairperson and 1 Council Member seat for 3-year terms; 2 Council Member seats for 2-year terms and 1 Council Member seat for 1-year term. Look for more information from the Election Committee.

Please be safe during this pandemic. We need to remain vigilant during this time when states are experiencing surges. Please take advantage of the zoom activities our tribal programs are hosting.

A handwritten signature in blue ink, appearing to read "Diana Segundo".

Kaibab Band of Paiute Indians

Dear Kaibab Paiute Tribal Member:

We are all experiencing the effects of COVID-19 and hope this finds you and your families safe and well.

In order to help Kaibab Tribal members deal with the burdens of COVID-19, pursuant to Resolution K-37-2020, the Tribal Council established the Kaibab Band of Paiute Indians COVID-19 Welfare Support Program (Program) for all Tribal members.

Please fill out the Program Participation form below and return it to Tribal Headquarters via hand-delivery, US Mail or email: covid19wsp@kaibabpaiute-nsn.gov. Make sure that your mailing address on file with the Tribe is current.

Certifications for minors may be completed and submitted by a parent or legal guardian.

Please also note that funds distributed under the Program are required to be spent by December 31, 2020.

Sincerely,

Kaibab Paiute Tribal Council

Ona Segundo, Chairwoman

Kaibab Band of Paiutes COVID-19 Welfare Support Program Participation Certificate

I, _____ (Print Kaibab Tribal Member Name), have incurred expenses related to the disruption of daily life due to COVID-19 (including expenses such as loss of income, food, housing, distance learning, technological improvements, health care, PPE, child care or any other public health/safety needs or services).

YES NO

I confirm and certify by answering YES above that I have incurred COVID-19-related expenses including, but not limited to those listed, or, by answering NO that I have not incurred any additional expenses and do not need COVID-19 relief funds.

Public School During a Pandemic Options for Families

Mandy Bundy
Tel: 928-643-6025
Cell: 435-689-0522

Arizona State Law requires that all children between ages 6-16 must attend school. Please come see me, call me, or set up a Zoom meeting to discuss any questions that you might have about these options.

1. Public School in person learning

All local schools will be reopening for in school learning beginning in August. As of today, all schools are required to have a mask policy and students will be required to have masks with them at all times and wear them as necessary. Social distancing will be enforced at all levels. Schools are working towards smaller classrooms, less congestion at points of entrance, and a flow of in school traffic that creates space, safety, and is sanitized regularly. Temperature checks will also be standard procedures.

2. Public School Distance Learning through your LOCAL school

Local schools are working towards providing a distance learning option for students. You must register your child with the local school and let them know that this is your preference. The curriculum provided to your child will come from the school in either an online format of what is being done in the classroom or by utilizing a third party online school curriculum that will be overseen by a teacher in the local district. Public schools who provide distance learning have more flexibility than online public schools. In the event that school must close, all students will be online distance learners and there may be required times of attendance for face to face instruction in digital classrooms.

3. Online Public School

There are several options in Arizona for free online public school. These schools are funded by tax dollars and are therefore required to keep record of your child's online "seat time" Your child will be given a curriculum provided by a certified teacher. They will be required to be online at specific times during the day. Registrations for online public schools is ongoing and many times these schools are starting earlier than public schools. If this is your choice, please research the school and get registered as soon as possible.

4. Online Private School

This option is mostly the same as the online public school except that you must pay a tuition. As a paid student, there is more flexibility on the time requirements and the ability to schedule learning around work schedules as needed. The average cost is \$1,500-\$2,000 for private online schooling.

5. HOMESCHOOL

In all the above options, there are certified teachers overseeing the curriculum provided to your child. When you choose to homeschool, **you are the teacher**. Arizona requires that you:

- File an affidavit of intent with the county school superintendent within 30 days of beginning home-school in the county. The affidavit of intent must include the child's name, the child's date of birth, the address of the school the child is currently attending, as well as the names, telephone numbers, and addresses of the persons who currently have custody of the child. You can search online for a format form.
- Provide a copy of the child's birth certificate
- Teach the required subjects of reading, grammar, math, social studies, and science in your home-school curriculum. You must create or buy a curriculum for learning.
- If you decide to stop homeschooling, you must submit a letter of termination with the county superintendent of schools within 30 days of ending your homeschooling.

Kaibab Band of Paiute Indians

Wildlife, Fisheries & Parks Department

Wildlife Director - As it appears we may be in this "COVID-19 PANDEMIC" for some time, Tribal Deer Hunting may change due to CDC regulations, the committee held a meeting on June 24 and we talked about the 2020 Indians hunts and the Tribal hunts, the committee voted to cancel the Indian hunts for this year due to the high cases of COVID-19 on the Navajo and Hopi Tribes and in the four corners area. Depending on what level the tribe is in at the time of the hunts, This is just head up, and has not gone before the council yet, permits will be issued outside of the tribal office at which time temptures will be taken, you will need a mask, In levels 1 & 2- only one hunter per household, may bring a family member as a helper and only allowed a few days to get your deer, this will be for both Tribal members that live on and off the Reservation. if we go to level 3 Everything is closed, and only Tribal Members that live on the Reservation can hunt, They have to get a permit and go out and get there deer the same day. Masks will be worn whenever Social Distancing can't be used. This is just heads up at our next meeting we should finalize this.

Watch out for DEER on the road - slow down between the store and Moccasin, if one crosses in front of you, there are more behind it, and sometimes they will run into the side of the Vehicle. All Car/Deer accidents need to be reported to Mohave County Sheriff, BIA Police or this Department, this is in the Wildlife Ordinance and in Arizona state law.

Fishing – All Tribal Members need a permit at no cost, so come in and get one for the 2020 season, all others cost is \$10 dollars for the first day, and remember to pick up your trash. Children need to be with someone 18 years or older while fishing and only tribal member can swim in the pond. And Social distaning needs to be practiced.

Fire Wood – Tribal Members you don't need a permit to get fire wood, unless you are selling it off the Reservation. But, to get wood for personal use or for a Tribal Member, you don't need a permit. You can get wood anywhere on the reservation, as long as it is not green, greenwood will burn slow and will plug up your chimney faster.

Back Dirt Roads – If for some reason you take the back roads, beware of the sand, and mud, remember to tell someone where you are going and about what time you will return, take a lot of water, some snacks, matches, shovel, tow chain, and a jack (Handyman), Cell phone may or may not work, Text messaging may work better, and pick up all litter, **KEEP MAIN GATES CLOSED!!!**, if the road gets sandy or muddy turn back you don't want to get stuck. If you know of someone that has gone out and not returned call this Department at any time, (office or Home) contact any Wildlife Committee member, or BIA-Police. This will only be to get them home, but if asked to be pulled you out, you may be charged a fee.

Any questions or concerns contact Danny Bulletts, Jr. at 643-8305 or Email me at dbullettsjr@kaibabpaiute-nsn.gov.

Employment Opportunities

Diabetes Fitness Coordinator Assistant

CHR Department

\$11.75/hr, no benefits
Part-time, permanent

With school starting soon sometimes we will start seeing cases of head lice. Here are some tips that will help prevent getting head lice and what to do if your children get head lice.

How to prevent lice

Kids at school and in childcare settings are going to play. And their play may lead to the spread of head lice. However, you can take steps to prevent the spread of lice among children and adults. Here are some tips on how to prevent the spread of lice:

1. Don't share items that touch the head like combs or towels.
2. Avoid activities that lead to head-to-head contact.
3. Keep belongings, especially upper body clothing, away from shared areas like coat closets.

Read on to learn more about these prevention techniques and what to do if your child does catch head lice.

1. Avoid sharing head-touching items

To reduce the chance of you or your child catching a case of head lice, start by not sharing items that touch the head.

It may be tempting to share personal belongings, especially for kids, but lice can crawl from an object to your head. Avoid sharing:

- combs and brushes
- hair clips and accessories
- hats and bike helmets
- scarves and coats
- towels
- headsets and earbuds

2. Minimize head-to-head contact

- When kids play, they may naturally place their heads close together. But if your child's friend has head lice, your young one may come home with it.
- Ask your child to avoid games and activities that lead to head-to-head contact with classmates and other friends. Adults, especially those who work with children, would be wise to follow the same principle.
- Put long hair in a ponytail or braid. A small amount of hair spray may help contain stray hair.

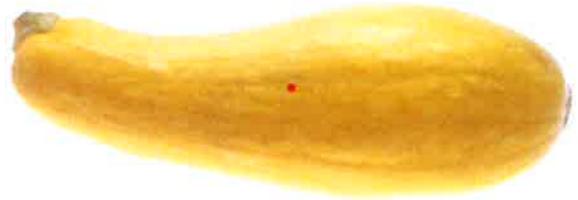

3. Separate personal belongings

- Shared spaces and shared belongings can be breeding grounds for lice. Closets, lockers, drawers, and common clothes hooks can create an easy opportunity for lice to pass from one person's things to another's.
- Ask your child to keep their belongings — especially hats, coats, scarves, and other clothing — out of common areas. For safety's sake, adults should take similar precautions.
- It's not always easy to know who has head lice and who doesn't. According to the Centers for Disease Control and Prevention (CDC) Trusted Source, sometimes it can take up to six weeks for those with lice to experience symptoms such as itching.

Other times, a parent will notice that a child has head lice before it's an epidemic. When you know someone has lice, be sure that you and your child avoid touching their furniture, beds, clothing, and towels.

4. Early actions

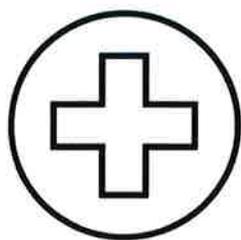

Schools may report a head lice infestation so that parents can take preventive measures with their families. If this happens, take action as soon as possible. Look in your child's hair for small white nits, the eggs of lice. Inspect your child's clothes — particularly hats, shirts, scarves, and coats — that have been worn during the past 48 hours, looking for lice and eggs.

Special Thanks to

Shape
our future
START HERE >

How the Census Benefits Your Community

Federal funds, grants and support to states, counties and communities are based on population totals and breakdowns by sex, age, race and other factors. Your community benefits the most when the census counts everyone. When you respond to the census, you help your community gets its fair share of the more than \$675 billion per year in federal funds spent on schools, hospitals, roads, public works and other vital programs.

Businesses use census data to decide where to build factories, offices and stores, and this creates jobs. Developers use the census to build new homes and revitalize old neighborhoods. Local governments use the census for public safety and emergency preparedness. Residents use the census to support community initiatives involving legislation, quality-of-life and consumer advocacy.

PUBLIC NOTICE OF EXCLUSIONS

**To all persons residing on or remaining on the
Kaibab Indian Reservation:**

After proper notice and hearing the following individuals have been excluded and/or banished from the Kaibab Indian Reservation pursuant to the Tribe's Exclusion Ordinance:

- Monique Carlson
- Arthur Leo Cisneros
- Carol Pikyavit Franklin
- Jolita Lopez
- Jerome Bushhead
- Malik Drye
- Nolan Fisher
- Ashley Rogers

What this means for you:

Per the Tribe's Exclusion Ordinance, unauthorized entry onto Tribal land (§ 1101(f)) and aiding and abetting criminal activities (§ 1101(x)) are grounds for exclusion/banishment.

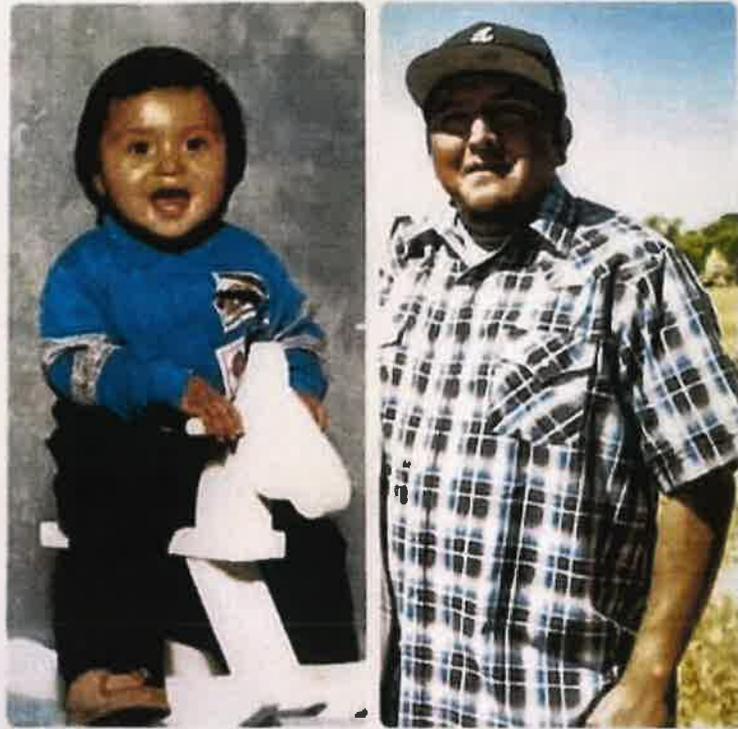

Assisting any of these individuals in unauthorized entry onto Tribal lands or helping them remain on the Reservation will subject you to Tribal exclusion/banishment proceedings.

If you help them violate the Exclusion Order you can be excluded or banished from the Reservation temporarily or permanently, in addition to any criminal prosecution you may face.

The Tribe's Exclusion Ordinance was enacted under Article VI, Section 1 (d), (h), and (j), and Article IV, Sections 1(a) and (h) of the Tribal Constitution, and the inherent sovereign authority of the Tribe.

The Exclusion Ordinance is a Tribal law meant to protect the Reservation, and the health and safety of all Reservation residents within the jurisdiction of the Kaibab Paiute Tribe. By this notice, the Tribal Council intends to achieve the objectives of the Kaibab Constitution—to strengthen the governing structure of the tribal government, protect and conserve tribal property and resources, administer justice, and promote the welfare of Tribal members.

Traditional Ya'huup Memorial Sing for Benny Norman Wero Jr.

Dinner will be served at 5pm
All night sing to follow with burn at sunrise.
Location: Shivwits Paiute Gym

Due to COVID-19 this event will be held outside. Please follow all safety precautions. Please bring your own chairs. All singers welcome.

ELECTIONS

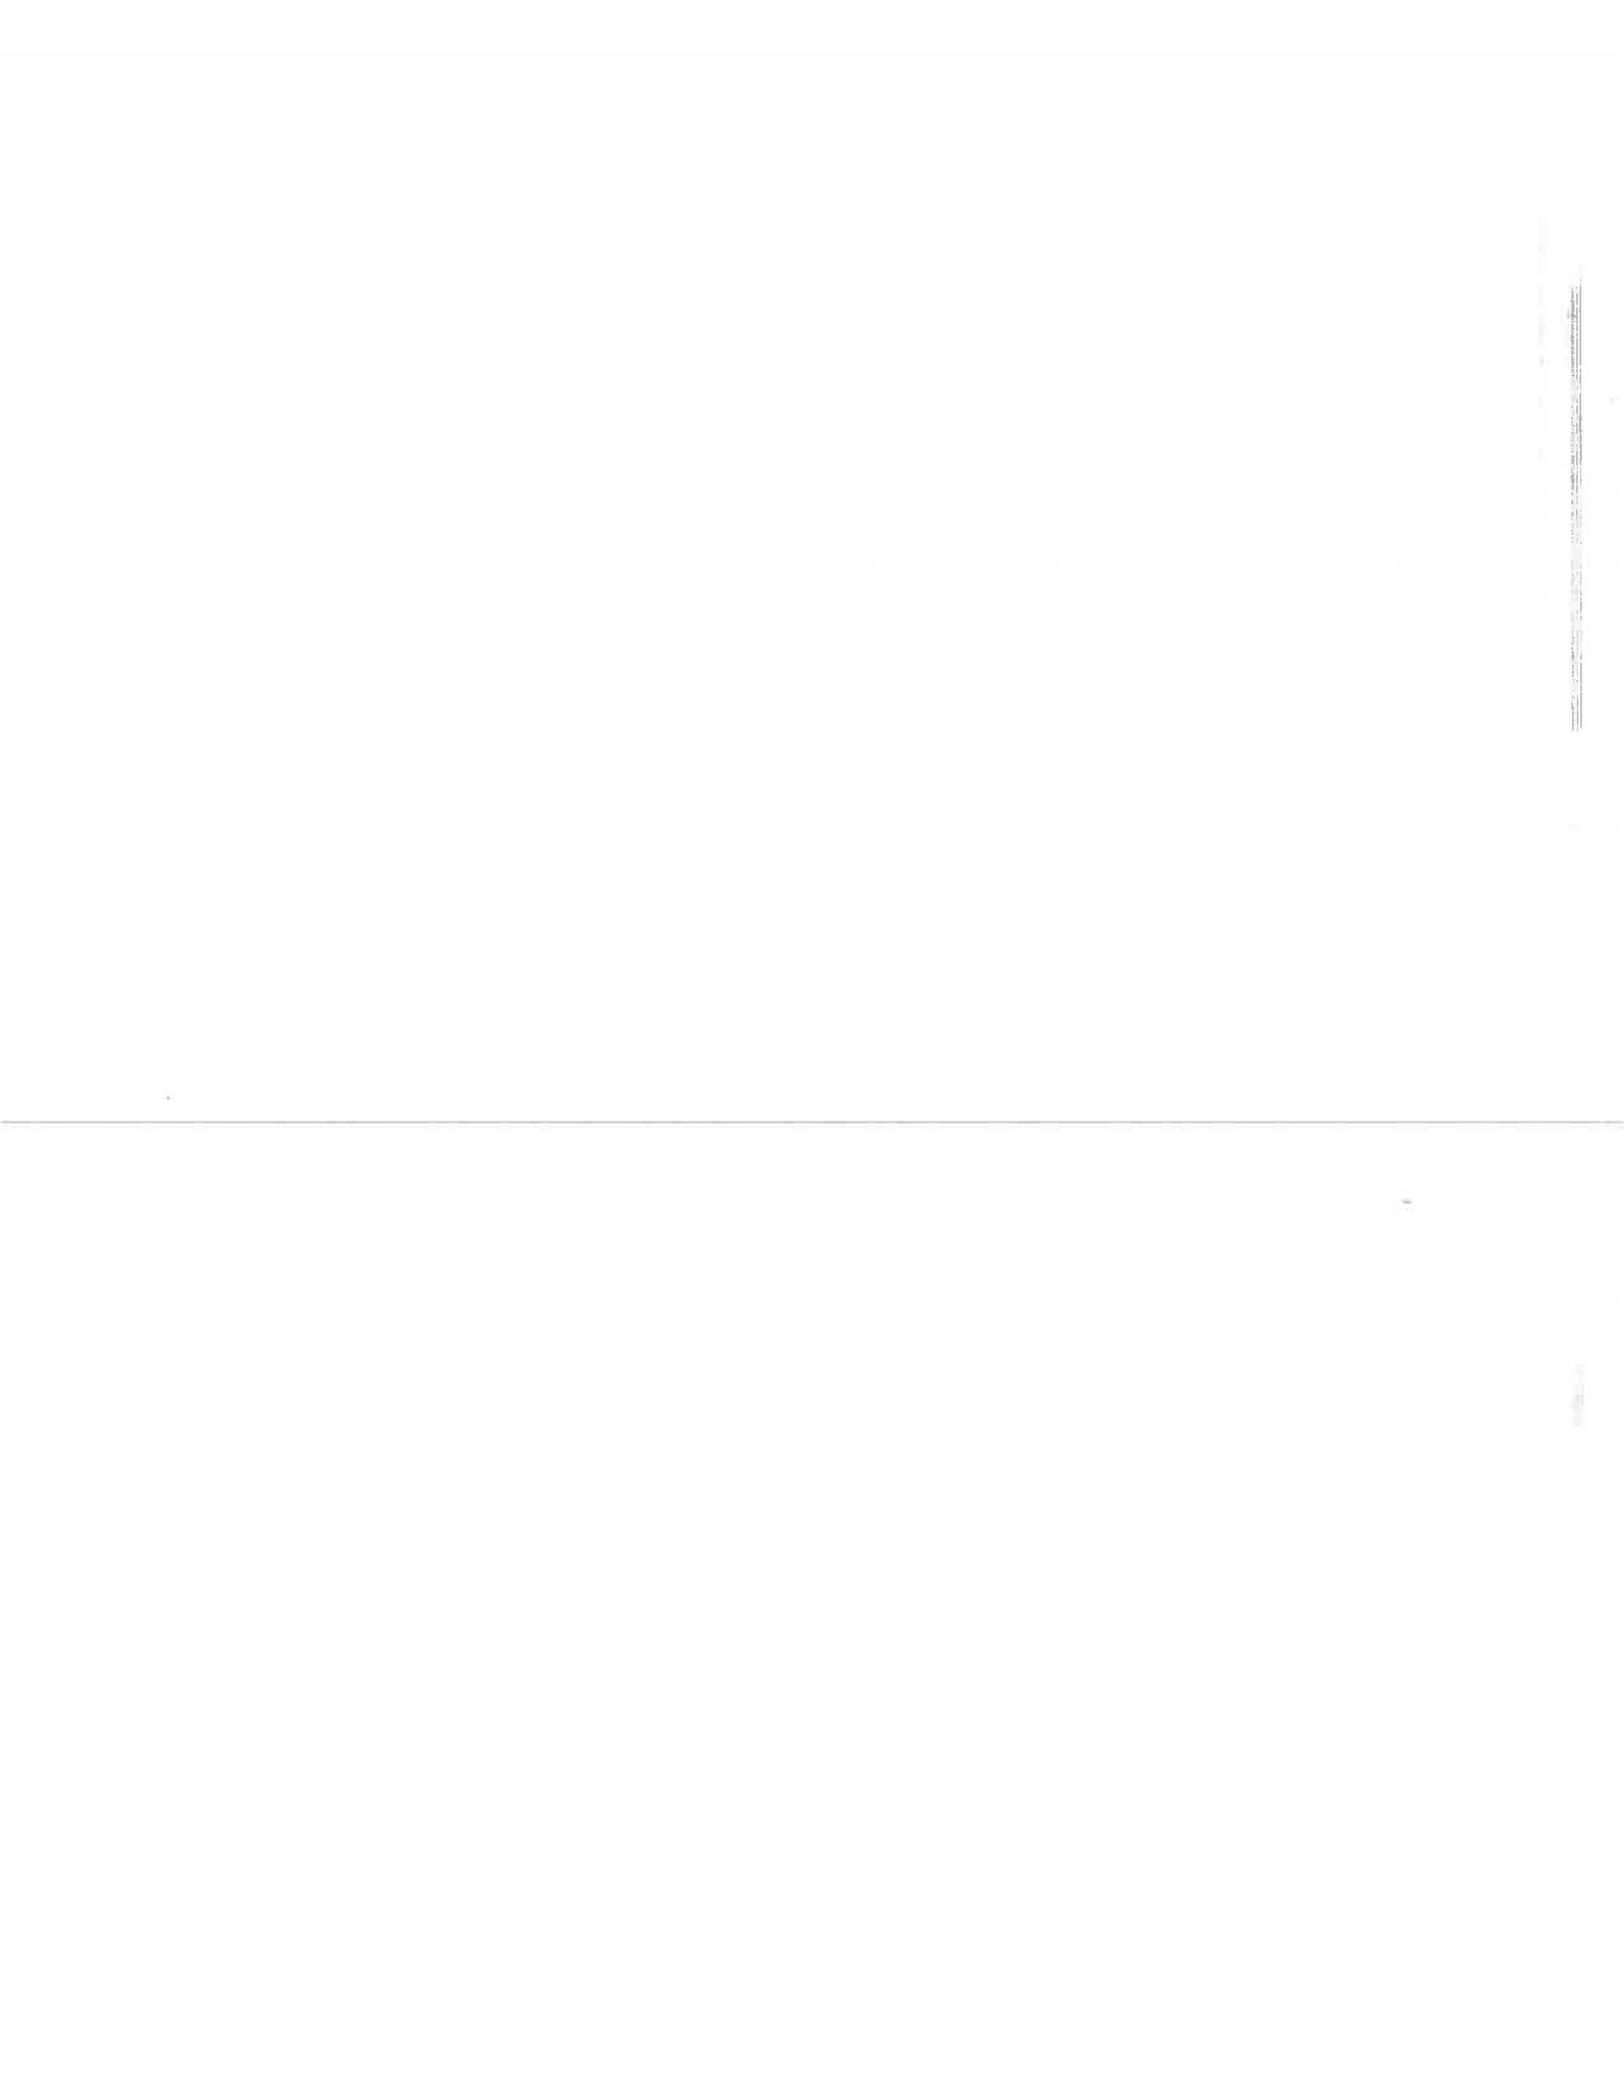

FROM: Tribal Council Member Manuel Savala

We, the Kaibab Paiute Band of Paiutes are looking for a few candidates to run and possibly serve the Paiute people. In the past there hasn't been any interest in serving your community or the people, which is sad, the absence of candidates is alarming.

I, myself, I'm wishing and hoping for a younger group of community members who are willing to serve for the betterment of the Paiute people. If not, the same group of Tribal Council members will not change, I want a change to happen, maybe introduce new and fresh ideas.

In the past October election, no one run for vacant positions, how sad again, myself and another elder submitted our names to fill those vacant positions after the elections were over. Not because we wanted to, because we felt it our duty to keep the Tribal Government moving. We, the (two) elders had retired from politics, we thought, but not seeing anyone stepping up to serve was our motivation.

An observation by this Council Member: Questions why the Tribe has not advanced in the last twenty years forward, think about it people, why, how come, when, what's stopping us? There is enough fault for all of us to share.
