

SMOKE SIGNALS

Summer – July 2015

Just a few pictures of
this year's 2015
Southern Paiute
Consortium River
Trip.

Beautiful as ever!

Chairman's Report to Tribal Council

The SPTCA was rescheduled to be on the 27th of May, this was cancelled due to a lack of participation.

The NRCS called and requested a meeting to go over the out-standing contracts that are still open. Mr. Kyle Spencer came to the office and we covered all of the contracts that are yet open. We were fortunate in that water resources Director, Meghann Olson, and farm Director, David Johnson, were in the building and we were able to bring them in and ascertain correct information in regards the work being done as well as that which still needs to be on going.

Participated in the LPP site visit and presentation hosted by the BLM, this was considered an official government to government consultation. Those present and representing the tribe were, council persons Lawanda Hill and Ila Bulletts, also present was tribal elder Glendora Homer and Environmental Director Daniel Bulletts. The presentation given by Dr. Stoffle was very interesting and covered a lot of the original material with the tribal specific and sensitive material redacted. Dr. Stoffle also covered the lack of science in the present theories concerning our (the Paiute people) being here and arrival. On the field trip representing the tribe were council persons Ila Bulletts and Laura Savala, along with tribal elder Glendora Homer, Wildlife Director Danny Bulletts Jr. and Environmental Director Daniel Bulletts. We had some trouble getting to some of the destinations, but Danny who is very familiar with the back country of our reservation was able get us there without a worry. The field trip was very well received and appreciated.

I and Mr. Mike Helm from YESCO Sign Co. had a meeting on the 5th of June to discuss the leases on the signage on the reservation. I presented him with a new lease and he will be getting them signed and returned, we added an amendment to bring the signs into conformity with our new IDA lighting policy. Mr. Helm was very receptive to working with us and said that he would have his maintenance people get the adjustments done as quickly as possible.

I met with Mr. Lyman Hafen of the ZNHA concerning the lease for the book store in the visitor's center. He said that he will be meeting with the Chairman of their board on Wednesday and will get a letter giving him permission to sign the lease, I have left the lease with him for his signature.

BIA, in continued communications with our BIA law enforcement, they have installed their computer main frame and internet services are up and going. They have relayed to the tribe that we will continue to have personnel detailed in and that they will make a more concerted effort to do introductions upon arrival. The MOU with Fredonia and BIA for assistance has been signed, we are awaiting introductions with senior officers.

LPP, waiting for conformation on the meeting with UDWR, since they have stated that the state has not changed its position on not using the northern route, this will be a meet and greet, introductions meeting.

Travel:
6/26/15 ITAA
SPTCA to be determined

Distracted Driving

July 2015

Eight Danger Zones

Make sure your young driver is aware of the leading causes of teen crashes:

- Driver inexperience
- Driving with teen passengers
- Nighttime driving
- Not using seat belts
- Distracted driving
- Drowsy driving

- Reckless driving
- Impaired driving

DRIVING SAFELY IS LIVING SAFELY

Safety is NHTSA's number one priority. Our mission is to reduce the number of deaths and injuries on our nation's roadways by getting driver, pedestrians and cyclists to change their behaviors once they get behind the wheel or on the streets. High-visibility campaigns, supported by state and national advertising help us achieve our mission.

There are more than 1,700 fatalities and 840,000 injuries yearly due to vehicle crashes off public highways. Eight teens a day are killed in car crashes, but injuries and deaths are preventable. Make sure your young driver is aware of the leading causes of teen crashes. Then use a parent teen driving agreement to put rules in place that will help your teen stay safe.

Teens go to web site

DISTRACTION.GOV and click teens, check out the videos of teen affected by distracted driving. Don't be another statistic, wear your seat belt and make sure all passengers are wearing theirs as well. DON'T TEXT AND DRIVE, your life is important to us, and you are our future leaders of the Tribe.

2011 CDC Study compared the percentage of distracted driver in the United States and seven European countries: Belgium, France, Germany, the Netherlands, Portugal, Spain, and the United Kingdom. Overall, the study found that a higher percentage of U.S. drivers talked on the phone and read or sent emails or texts while driving than drivers in several other European countries.

ATTENTION TRIBAL MEMBERS

The Dog and Cat Committee Would like to let you know we have Signs that you may post on your premises for your Dog or Dog's

Per Section 8 A. #5 of the Dog and Cat ordinance NO.9

It states that an owner shall display a minimum of two (2) signs on his/her premises, warning that there is a vicious dog on the property.

The sign shall be visible and capable of being read from the public street thoroughfare. In addition, the owner shall conspicuously display the sign warning children of the presence of a vicious dog.

It is getting a lot warmer outside and many children are outside playing now and we also have tourist coming through our communities let's keep our kids and community members safe by making them aware that you may have a dog on your premises that could bite them, also by posting these signs you are preventing yourself from being liable from any lawsuits that might occur if a person was to come in your yard unannounced and get bitten by your dog or dogs.

To get a sign for your home please contact Autumn Gillard at the tribal building 643-8335 or Judith Martinez at the early learning center 643-6890

Also with the temperatures rising please keep in mind to water all your animals outside and when walking them try not to take them out when temperatures are at their highest as the hot pavement will burn their paws also be sure to keep a shaded area for them to relax in by their homes so they are not in the direct heat for long periods of time. Keep in mind when taking your pet in the car with you to always leave your windows cracked and some water inside the vehicle for them or if you are capable of leaving the car running with the A/C on that will help to keep your animal safe and healthy, let's show our four legged brothers and sisters the same respect as you would a family member

KIDS WELLNESS CAMP 2015

WHEN: july 23 & 24

Where: Kaibab Paiute gym

what: 2 days of fitness and fun!

Who: kids, tweens and teens

Kids - Thursday July 23 9:00 am - noon

Tweens - Thursday july 23 noon – 5:00 pm

The Red Queen

by Victoria Aveyard

Join us for refreshments, prizes, and discussion about this book.

The family of Shaliese Hill would like to thank the following people/programs for all of their help and assistance. Red Cliffs Chevron, Kaibab Social Services/Substance Abuse, CHR's, Clarinda John and family, Eileen Posvar, Laura Savala, Dennis Day and Family.

A great big, huge hug to LaWanda and Quentin Hill and family, Carmen Bradley and family. You guys have helped us out so much and we would not have been able to go to Salt Lake to be with Shaliese if it wasn't for you guys. We appreciate everything that you have done for us!!

Thank you everyone for your prayers it means so much. Shaliese is home, but will still need to go to Salt Lake weekly and will be starting the rest of her treatments in Dixie, which will be a lot closer.

Aguin, THANK YOU!!

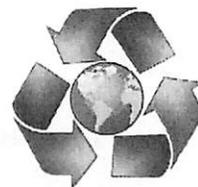

YOLANDA K. ROGERS
