 **Banner Health**

If your goal is to stay healthy this season in 2019, avoid making these 8 common mistakes.

## 1. Not getting your flu shot.

Getting the flu shot is the single most effective thing you can do to prevent getting the flu. If you haven't been vaccinated this season, do so right away. If you are still feeling unsure about it, check out

## **2. Not washing your hands enough.**

You've probably been taught the importance of washing your hands ever since you were a little kid. However, during cold and flu season, washing your hands well and washing them often is especially important. We can be exposed to cold and flu germs almost everywhere we go. These germs can live on the door handle to your office, the shopping cart at the grocery store or even a salt or pepper shaker. Instead of deciding you're going to wear plastic gloves everywhere you go from now on, just pay special attention to giving your hands a good scrub more often than you may think is necessary. Keeping hand sanitizer close by is a good alternative for the times you can't get to a sink to wash up. If you need even more convincing that handwashing is so important, visit this.

## **3. Not sleeping enough.**

Most experts would agree that getting a good night's sleep has many health benefits. Getting a minimum of 8 hours of sleep each night has shown to make a person more resistant to viruses. (It also doesn't hurt that you are bound to feel so much better when you wake up after a great night's sleep!)

## **4. Not staying active.**

When you get busy, exercise tends to be one of the first things you cut from your schedule. During cold and flu season, you may want to think twice about cutting the exercise because a regular exercise routine can help you stay healthy. Aside from reducing your stress levels, regular exercise can help accelerate the circulation of white blood cells, which helps to fight the common cold.

## **5. Not disinfecting.**

Keep your surroundings as clean as possible. A lot of us spend most of our time either at work or at home, so it can be as simple as taking a few extra minutes to routinely disinfect those spaces. When you have a spare couple minutes at work, wipe down your desk, keyboard, computer mouse, phone and anything else you frequently touch throughout the day. When you get home, take a couple of minutes to clean commonly touched areas like countertops, light switches and door knobs. If someone around you has been sick, it is even more important to disinfect often.

## **6. Too much sharing.**

Cold and flu season is definitely not the best time to let your friend take a sip from your drink. To avoid the spread of germs, try your best not to share towels, utensils, drinking glasses or other personal items. It's also important that all these items are properly washed in hot, soapy water before the next person uses them.

## **7. Not eating well.**

Eating a balanced diet rich in natural vitamins and minerals helps contribute to a healthy immune system - which helps keep you from getting sick. So, if it's been a while since you've had some green, leafy vegetables, it may be time to add some back into your diet. A tip to ensure you're getting a healthy number of vitamins in your diet is to try cooking with lots of colors which typically translates to those veggies and fruits!

## **8. Stressing too much.**

Being chronically stressed can make your immune system less effective. Cortisol (sometimes called the stress hormone) can help your body fight inflammation and disease. When someone is chronically stressed, they are releasing this hormone more often than is normal which lessens its effectiveness. Take some time to decompress or do things that reduce your stress levels - it's beneficial for your health.

**Mistletoe Fuels Treatment Presentation**

**March 13, 2019**

**KPT Community Building**

**5:30 PM**

The Bureau of Indian Affairs, Southern Paiute Agency will be conducting Kaibab Mistletoe Fuels Project on the Kaibab Paiute Indian Reservation. The project is approximately 250 acres located-north of the Pipe Springs National Monument roads to the Moccasin boundary.

The purpose of the fuel's treatment is to reduce the hazardous fuel accumulation in the pinyon/juniper woodlands stand. The focus is removing the diseased (Mistletoe) juniper trees, improve health on the woodlands stand, and improve perennial grasses, shrubs and forbs. The fuels treatment will create fuel break and reduce the overall threat of a potential catastrophic wildfire which could impact outlying residual properties adjacent villages and Pipe Springs National Monument.

The presentation will present information on techniques to be use on how this will be implemented during the project. We welcome your input, concerns or recommendations. We look forward to seeing you at this presentation.

**March 25<sup>th</sup>, 2019 - 1:00 p.m.**

As we enter the third month of 2019 and as we get very close to spring, I felt it important to highlight some items coming up that I am excited about. And as I sit at my desk watching the snow come down I am optimistic that we are going to have a great spring. My position here is to help ensure the surface water of the Kaibab Band of Paiute Indians is properly tested and monitored. But I also have the opportunity to work with the community on different programs to educate and develop water conservation information. So here is the beginning of upcoming events and activities.

- Ms. Joan Lambert Willden will be offering a “class” for those that are interested in attending on how to make better use of our greenhouse. This will include planting seeds (both heirloom and hybrid) for those in attendance to be used back here in the community. I will be sponsoring a trip up to Northern Utah to visit Lambert Nurseries and getting plants to bring back here.
- My program will be donating time and money to develop planters and native trees and shrubs for the new Senior Center. More info as we work out the details.
- My program will once again sponsor a summer youth program to the Mingus Mountains. A program sponsored by the 4H of Arizona. This is for the youth 13-17 years of age.

That is what I have thus far for the start of 2019. In the mean time I continue to revegetate parts of Two-Mile Wash as we work on getting rid of the invasive Tamarisk. The Tamarisk Beetle made a comeback last year and I hope they will return to continue to weaken the invasive shrub.

If any one has any questions or even suggestions on different events and programs, please feel free to contact me. Protecting our most precious resource, water, is very important to me and I look forward to continuing to work with the great people in this community.

**Wildlife, Fisheries & Parks Department**

**Wasting Deer Meat** – On January 9, 2019 it was reported that there was deer meat in the dumpster at Red Hills Village, upon checking I Found one large piece of Deer Meat. This is a violation of the hunting rules, first to not waste meat and second not to put any part of a deer in any dumpster. This is considered wasting and all hunters should have more respect for the animal they harvest.

Hunters sign a rules and regulations paper before they are issued a permit and it says that any hunter caught wasting will lose their hunting privileges for up to 5 years.

The animal gives its life so you can give life to yourself, your family and others, hunters should never disrespect the animal they harvest by wasting the meat like this. As Tribal Members we can't let another Tribal Member get away with this or anyone that has ties to the Tribe.

Therefore, this Department would like anyone with information to call this Department, so that the person or persons who committed this violation, can be dealt with.

**Anyone with information that would like to stay anonymous can do so. Call (928) 643-8305.**

**WATCHOUT FOR DEER** - On County Road 240 Slow down and if you see Deer, slow down more as they can jump right out without warning in front of you or into the side of your car, the best thing is to slow down. Also remember it is a violation in the Wildlife Ordinance that hitting a deer needs to be reported to this Department or BIA Police, if Non-Indian it needs to be reported to County/State or Arizona Game & Fish it is an Arizona State Law...

**Tribal Hunters** – If you made a kill in the 2018 hunts and haven't turned in your White tag to the Wildlife Department. You have been tagged to not get a permit next hunting season. This Department does not recommend hunting in January to July due to the poor condition of the Bucks after being hunted for three months, with the Doe's fawning, and it being winter.

**Minors Hunters Safety Card** – On the internet go to [hunter-ed.com](http://hunter-ed.com) - Everyone below the age of 18 needs to attend a hunter's safety course or they need to attend the ones we do every October during the Youth Hunt, the child will need one to get a hunting permit. This is not something new it has been in the Ordinance since the beginning. It is better to get a Hunters Safety card in the state you live in so you can participate in there State hunts.

**Fire Wood** – You don't need a permit to get fire wood, unless you are selling it off the Reservation. But, to get wood for personal use or for a Tribal Member, it is ok, you can get wood anywhere on the reservation.

**Fish pond** – We are schedule for a load of 200 trout Fish in March when we are set for a delivery of fish 9 to 10 inches.

**Back Dirt Roads** – If for some reason you take the back roads, beware of the sand and mud, remember to tell someone where you are going and about when you will return, take a lot of water, some snacks, matches, and bring a shovel, tow chain, and a jack (Handyman), Cell phone may or may not work, and pickup all litter, **KEEP MAIN GATES CLOSED!!!**, if the road gets sandy or muddy turn back you don't want to get stuck. If you know of someone that has gone out and not returned call this Department at any time, (office or Home) contact any Wildlife Committee member, or BIA-Police.

This Department is reporting that it has not seen any "Giants" or "Zombie Deer"...

Any questions or concerns contact Danny Bulletts, Jr. at 643-8305.or Email me at [dbullettsjr@kaibabpaiute-nsn.gov](mailto:dbullettsjr@kaibabpaiute-nsn.gov).  
Thank You.
