

Every Drop Counts!

Get your Water EcoKit Today!

Water conservation is the key to securing the longevity of our water sources. As individuals, we can all do our share to conserve water, and save this precious resource together, ensuring there will be sufficient water supplies for many years to come. The Water Resource Department would also like to help by providing kits to the community.

The Water Resources Department is offering Water EcoKits to households to help promote water conservation.

The kit includes:

Two leak detection tablets, a 1.5 gallon per minute (gpm) Massage Showerhead, a 1.0 gpm Bathroom Sink Aerator, a 1.5 gpm Kitchen Swivel Aerator, a Toilet Water Saver, and a Toilet Tank Bank.

The kit is free for community members and easy to install. Please contact myself (643-8314), or the Tribal Office (643-7245) to receive a kit today, and help to conserve our precious water resource!

Pick up your Water EcoKit today –and help conserve water! Limited number available – we can help install if needed! **Every Drop Counts!**
