Mask Use at Tribal Buildings

A mask will not be required while in any of the Kaibab Band of Paiute Indians tribal buildings while the COVID-19 Community Level is at Low or Medium for Mohave County. A mask will be required if the community level reaches High.

We will monitor this level on a weekly basis and make any changes necessary.

To assist the community we will have color coded cards on the doors of tribal buildings.

- Red - High (mask required)
- Yellow - Medium (no mask)
- Green - Low (no mask)

Check your community level at: cdc.gov

We will be having a Tribal Easter Party this year.

Dear Community,

As was announced a few months ago, we will begin with the meter replacement project around the first of April. We will be replacing all meters on the Kaibab Paiute Reservation with new and improved technology. If the need should arise, we will be shutting water off for short periods of time. We will have a contractor doing the work, so you may see them around on the reservation. The Water Resources Department Director will be overseeing the project. We will need access to the meter cans in the front of each home, except for a few that are on the back side of the home. There may be heavy equipment used and we will do our best to ensure the safety of the community. The meters will be mobile automatic read which means the monthly readings will be done through a radio read software system. Through this new auto read system we will have leak detection and high-water usage notifications to promote water conservation. Please be notified that because many of the current meters are 20+ years old they have not been 100% accurate so you may see changes in your water usages and monthly fees. We also are switching to a new billing system that will be more accurate and easier to navigate. If you have questions, please reach out at 928-643-8372 or (435) 899-9242 Thank you.

Iris Johnson, Water Resources Director
My name is Austin Holmes, and I am the new Water Quality Specialist working with the Water Resources Department. I grew up around Salt Lake City, UT, though I spent multiple years working in the backcountry of the southwest, including areas nearby such as Grand Staircase-Escalante National Monument, which made me fall in love with this land and is what led to my move to Apple Valley just recently.

I attended the University of Utah and received a bachelor's degree in environmental studies.

I will be working on various things for my position, such as testing surface water quality, implementing noxious weed treatment and native plant restoration, and working to improve the greenhouse and gardens, among others.

I'm happy to be here and am looking forward to doing my job well. I am motivated to be of any service I can to the tribe and hope to make a positive and respectful impact in anything I do.

As you may have noticed, we did get the new dumpsters. Same rules apply, only household garbage. All big items can be taken to the big dumpster in front of the shop. PLEASE MAKE SURE ALL GARBAGE IS BAGGED AND MAKE SURE THE LIDS ARE CLOSED. Your cooperation is appreciated.

The Executive Director, Ty Bundy and the HOC, Yolanda Rogers have moved into the old Learning Center. Stop by and see us.

Reminder ALL work orders must be called in to either Yolanda, 928-643-6890 or Kathryn 928-643-8315. If they are not called in, they will not be worked on.

All the water meters will be getting replaced soon.

The duplex in Kaibab Village is coming along.

As we stated before, we will be having our beautification contest. So, start getting your yards ready. There will be one winner per village and one grand prize winner. Good luck to everyone.

Hopefully in April, we will be starting our Financial Skills for Families. Remember we will be keeping track of those who attend our workshops and at the end of the year we will be giving out incentives.

There will be a Women’s Craft on March 24 and 27, 2022.

On February 15 and 22, 2022 we had a workshop “Help Yourself to a Healthy Home & Cleaning Tips”. We gave out mop buckets and cleaning supplies. We asked the people in attendance to give us some cleaning tips and here is what they came up with:

- Toilet cleaners can clean tile grout
- Vinegar, baking soda and boiling water as drain cleaner

- Apple Cider Vinegar to clean shower head or sink sprayer
- Baking soda, Vinegar & Dawn to mop floors
- Put Vinegar in a sandwich bag and tie it to the shower head
- Use Dawn dish soap to remove “slime” from the upholstery in cars or furniture
- To clean microwave: put vinegar (white) & water in a microwave safe bowl and microwave it for around 7 minutes
- Spot a toilet leak: Add packet of koolaid (dark colored) to toilet tank wait 30 minutes. If you find the inside of the toilet bowl same color as the koolaid that means you have a leak.
- Last, use you’re hand and elbow grease!

Thank you to all who came and participated. Also if anyone has any tips or ideas for workshops, please let us know.

THE FAB FIVE

Perform 15 to 20 reps of each move, then continue immediately to the next; at the end, rest for up to two minutes. That’s one set. Repeat the entire routine once or twice more. You’ll need weights (start with 10 pounds or less). This could be a pair of dumbbells, but whatever else you have on hand that happens to be the same size, like water bottles, will work. You’ll know you’ve hit your strength sweet spot if the last couple of reps leave you saying “phew!” Don’t feel that fatigue? Take it up a notch next time. Ready, set, sweat!

**Bilateral Bent-Over Row With Tricep Kickback**
Stand with hips pushed back so torso is tilted 45 degrees, arms extended toward floor, hands holding weights (A). Pull both hands up alongside rib cage (B), straighten arms behind body, keeping elbows high (C), then return to start. That’s 1 rep. (If you’re doubling up weights to lift heavier, perform all reps on one side, then switch hands.)

**Upright Row**
Stand with feet hip-width apart, arms reaching toward floor, with hands holding weights against thighs and palms facing body (A). Pull elbows wide and up to slightly above shoulders, so hands reach chest height (B), then return to start. That’s 1 rep.

**Prone Row**
Begin in plank position with hands resting on weights, wrists straight, and legs hip-width apart (A). Keeping back flat, pull left fist up to bottom of rib cage with elbow aimed toward ceiling (B), then return to start. That’s 1 rep. Complete all reps on one side, then repeat on the other.
**Reverse Fly**
Stand with hips pushed back so torso is tilted 45 degrees and arms extended straight down toward floor, hands holding weights, palms facing each other (A). Squeeze shoulder blades together and lift elbows wide to sides (B), then return to start. That's 1 rep. (If you're doubling up weights to lift heavier, complete all flies on one side, then switch. Just be sure not to let your chest rotate as you raise one arm.)

**Single-Arm Split-Stance Bent-Over Row**
Stand with right foot forward, knee slightly bent, left foot back, leg straight and heel high, hips hinged, and torso tilted forward 45 degrees. Arms should be straight, hands framing front shin, palms facing each other and weight in left hand (A). Pull left fist up to bottom of rib cage (B), then return to start. That's 1 rep. Complete all reps on first side, then switch.
Wildlife, Fisheries, & Parks Department

Asking for information from Tribal and Community Members on the following two Incidents:

1. Poaching of a Buck Mule Deer – Hunting without a permit – shooting close to homes – wasting meat. This occurred on the afternoon of December 24, 2021, west of the Tribe’s Cemetery. A Red, 2 door, Pickup Truck, with Utah Plates, was parked in the area.

2. Poaching of a Federally Protected Red Tail Hawk. Federal violation- shooting near homes – Taking of a Bird. This occurred between January 20-23, 2022, at the Kaibab Village Park, it was shot off its favorite perch, the tallest tree in the park. This hawk had been seen around the park so much that some of the kids gave it a name.

So PLEASE, if you know whose vehicle this is, it might be a Trial Member who lives in Utah off the reservation. Or if you have any information on either of these incidents if you want, you can be “anonymous”, or contact me dbullettsjr@kaibabpaiute-nsn.gov, cell phone/text (435) 689-1624, office (928) 643 8305, or in person.

Hunting:
All Tribal Hunters – This is the LAST request for you to turn in the “WHITE PAPER” by April 30, 2022, if you harvested (killed) a deer in the 2021 hunt, this so the Department can get a count of deer harvested in 2021. You can bring it to me, send it to me by mail, fax, phone, or leave with the front desk. If you’ve washed it or lost it, call me and tell me the date and time of issuance. Turning it in next year when you get your permit is not going to work. The 2021 hunts went well, with no one getting hurt.

Guides Trainee – we need Trainees, you must be 18 years of age and older, a tribal member or legally married to a tribal member, an interest in the outdoors, be able to get up before dawn, shadow a guide and be in good standing, contact any Wildlife Committee member or the Director for more information.

Fishpond – Tribal members need a NO Cost permit; Kids need to be accompanied by an adult. We got a load of fish so we will have a fish derby soon.

Watchout For Deer – From mile post 1 to Moccasin be cautious of the deer. Report deer accidents immediately to Wildlife or BIA Police.

Minors Hunters Safety Card – On the internet go to “hunter-ed.com”. Everyone 10 to 18 needs to attend a hunter’s safety course. The youth will need one to get a hunting permit. This is not something new it has been in the Ordinance since the beginning. It is better to get a Hunters Safety card in the state you live in so you can participate in their state hunts.

April is National Child Abuse Prevention Month

7 steps to protecting our children*

Step 1. Learn the facts. Understand the risks.
   Realities – not trusts – should influence your decisions regarding children.

Step 2. Minimize opportunity.
   If you eliminate or reduce one-adult/one-child situations, you’ll dramatically lower the risk of sexual abuse for children.

Step 3. Talk about it.
   Children often keep abuse secret, but barriers can be broken down by talking openly about it.

   Don’t expect obvious signs when a child is being sexually abused.

Step 5. Make a plan.
   Learn where to go, whom to call and how to react.

Step 6. Act on suspicions.
   The future well-being of a child is at stake.

Step 7. Get involved.
   Volunteer and financially support organizations that fight the tragedy of child sexual abuse.
